Re Estimates for improvement of water supply in Malleswaram Sri Rampur and Seshadripuram areas in Bangalore City

---

I have the honour to forward herewith an estimate in two parts amounting to Rs 62,200 and Rs 18,190 respectively for the urgently needed improvements of water supply in the above locality for favour of being passed by the Council and sanctions with countersignature and funds arranged The 9" main estimate is a very urgent necessity and has to be sanctioned this year The 6" main estimate can be financed and executed in 1948-49

These schemes were given as far back as in December 1932 alone along with the scheme of improvements to the whole Bangalore City Distribution System and were ordered to be taken up one by one as and when finances permit But the postponement of this work for 15 years has accentuated the troubles considerably due to the extraordinary growth and concentration in this District since these 15 years and the improvements cannot be deferred any longer The accompanying notes and reports explain them in further detail Favour of taking special interest and arranging sanction is earnestly solicited
